REPLY TO
ATTENTION OF:

Mr. John McMahon
Deputy Director
Central Intelligence Agency
Washington, D.C. 20505

Dear Mr. McMahon:

I want to again express my appreciation and thanks for the Agency's continuing interest in and unstinting support for our programs. The visit on February 26th to CIA Headquarters by the NWC and ICAF students taking our Intelligence and National Security course will be, I am certain, one of the memorable experiences of this class.

The several briefings were most informative and presented very skillfully by the experienced professionals of your staff. The information that the briefers shared with the class formed an important building block in the course infrastructure. By giving our students a sound foundation of knowledge, covering several important responsibilities for the CIA, their attention was focused on the multi-faceted interface between CIA and other sectors of our Government. The briefings on substantive operational matters made for a quality afternoon which was much appreciated and enjoyed by our students.

I also want to offer a special notice of appreciation to [redacted]
[redacted] of your Training Office, who most ably organized this successful
visit to CIA Headquarters.
